Review report and condensed consolidated interim financial information

For the six month period ended 30 June 2024

Principal business address: Abu Dhabi National Insurance Company PJSC P.O. Box: 839 Abu Dhabi UAE

Abu Dhabi National Insurance Company P.J.S.C. Board of Directors' Statement For the six-month period ended 30 June 2024

The Board of Directors is pleased to report Abu Dhabi National Insurance Company's financial results for the six-month period ended 30 June 2024.

ADNIC has successfully completed the strategic acquisition of a 51% stake in Allianz Saudi Fransi Cooperative Insurance Company (ASF) in Saudi Arabia, gaining control of ASF as of April 17, 2024. The financial results now include the consolidation of ASF's results from the effective date of the acquisition.

ADNIC has demonstrated a strong underwriting performance evidenced by a combined ratio of 92% and net insurance service results totalling AED 204.3 million. It has also achieved a record Gross Written Premium (GWP) of AED 4,406 million which represents a surge of 47% compared to the same period last year.

Group consolidated investment income for the six-month period was AED 119.1 million, reflecting an increase of 8% compared to last year. ADNIC leveraged the current interest rate scenario to boost interest income from the fixed income portfolio through higher allocations. Property income and dividends also contributed positively.

ADNIC continues to focus on controlling general expenses with the growth in overall expenses reported meaningfully lower than premium growth, despite ongoing investments. This commitment to efficiency is reflected in our expense ratio of 12%.

As a result of strong underwriting and investment performance and the successful acquisition of ASF, ADNIC has achieved a net profit before tax of AED224.3 million, marking a 10% increase compared to the same period last year.

Earlier this year, the UAE witnessed record-breaking rainfall in April, serving as a reminder of unpredictable weather conditions. Despite the flooding, the swift and coordinated response from emergency teams, guided by the leadership's proactive approach, mitigated the impact of the floods and ensured the safety of our community.

We are grateful for the guidance received from the UAE's leadership and extend our sincere thanks to His Highness Sheikh Mohamed Bin Zayed Al Nahyan, President of the UAE and His Highness Sheikh Mohammed Bin Rashid Al Maktoum, UAE Vice President and Prime Minister, and Ruler of Dubai, and His Highness Sheikh Khaled bin Mohamed bin Zayed Al Nahyan, Crown Prince of Abu Dhabi.

Looking ahead, ADNIC's strong financial foundation, combined with its team of highly skilled professionals, positions us well to seize promising opportunities within the insurance sector. Our international expansion demonstrates our commitment to delivering sustainable value for our shareholders while at the same time contributing to the continued development of the insurance sector in the region.

and a

Sheikh Mohamed Bin Saif Al-Nahyan Chairman of the Board

Abu Dhabi National Insurance Company P.J.S.C. Chief Executive Officer's Statement For the six-month period ended 30 June 2024

I am very pleased to present the current state of affairs of Abu Dhabi National Insurance Company PJSC for the six-month period ended 30 June 2024. ADNIC continues to deliver outstanding performance in 2024, highlighted by solid financial results and successful execution of key strategic growth initiatives.

During this quarter we successfully completed the acquisition of a 51% stake in Allianz Saudi Fransi Cooperative Insurance Company (ASF) in Saudi Arabia using own funds only. This move solidifies our position as a leading insurer in the region and reinforces our commitment to delivering exceptional customer service and innovative insurance products across the GCC. We are confident that this acquisition will enable us to offer industry-leading solutions across all major insurance lines. All the financials discussed here follow the full consolidation of ASF performance from the date of the transaction's completion.

Earlier in the year the UAE experienced its heaviest rainfall in recorded history, resulting in severe flooding across the country. Despite the unprecedented disruption, the quick and effective response by the UAE's leadership, our emergency response teams, as well as the public and private sectors demonstrated the resilience of the nation during this unique time. ADNIC through its sophisticated Enterprise Risk Management framework and market leading comprehensive Reinsurance Risk Transfer programs was able to respond swiftly to this crisis.

Key Financial Highlights

Total Insurance revenue

For the six-month period ended 30 June, 2024, the total insurance revenue has grown by 54% year on year to reach an all time high of AED 3.3 billion, compared to AED 2.1 billion for the same period in 2023. This reflects our continuous excellence in the provision of corporate insurance solutions for mega projects as well as our underlying multi-channel, product line and territory infrastructure and readiness.

Net insurance service result

For the six-month period ended 30 June, 2024, net insurance service result has grown by 15% year on year to reach AED 204.3 million, against AED 178.1 million for the same period in 2023. This reflects the robustness and strong underwriting and analytical discipline in the way our business is managed and produced.

Net Income from investment

Net income from investment has grown by 8% year on year to reach AED 119.1 million for the six-month period ended 30 June 2024, compared to AED 110.8 million for the same period in 2023. It reflects the resilience of our underlying asset allocation mix to the underlying market conditions and trends.

Other operating expenses

Other operating expenses has increased to AED 108.9 million up from AED 81.6 million for the six-month period ended 30 June 2024. This follows the full Allianz Saudi Fransi Cooperative Insurance Company consolidation and ongoing corresponding projects required this year.

Profit for the period before tax

For the six-month period ended 30 June 2024, profit before tax has grown by 10% year on year to AED 224.3 million, compared to AED 204.4 million for the same period in 2023. Tax expense for the year is AED 19.1 million yielding a Profit After Tax for the year of AED 205.2 million.

As at 30 June 2024, at a consolidated Group level **Total Assets** has increased by 41% to AED 10.9 billion compared to AED 7.7 billion as at 31st Dec 2023. **Total Shareholders' Equity** stood at AED 3.2 billion.

Finally, I would also like to highlight that sustainability remains a core pillar of our strategy. We also recognise that this is not just about creating new products or services that reduce environmental impact, it's also about making them accessible to everyone. At ADNIC, we are committed to supporting our customers by making sustainability inclusive and available. In parallel, we understand that the transformation towards a sustainable future should begin at the very core of our business and that's why we've also taken decisive steps across our operations to make this a reality with innovative solutions.

I would like to thank our Board of Directors for their continuous support and guidance. I also extend my sincere gratitude to our exceptional team for their dedication, and to our valued clients and partners for their enduring trust. All their collective contributions have been vital to our continued success. By staying true to our values and embracing innovation, we are confident in delivering long-term value for our stakeholders and solidifying ADNIC's position as a regional market leader.

REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

The Board of Directors Abu Dhabi National Insurance Company PJSC United Arab Emirates

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of **Abu Dhabi National Insurance Company PJSC P.S.C.** (the "Company") **and its subsidiaries** (the "Group") as of 30 June 2024 and the related statements of profit or loss, comprehensive income, changes in shareholders' equity and cash flows for the six months period then ended and material accounting policy information and other explanatory notes. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

Other Matter

The interim financial information of the Group for the six months period ended 30 June 2023 and the consolidated financial statements of the Group for the year ended 31 December 2023 were reviewed and audited respectively by another auditor who expressed an unmodified conclusion on that information and an unmodified opinion on those statements on 10 August 2023 and 12 February 2024 respectively.

Notes to the condensed consolidated interim financial information (continued)

1 Legal status and activities

Abu Dhabi National Insurance Company PJSC (the 'Company') is a Public Joint Stock Company registered and incorporated in Abu Dhabi, United Arab Emirates, by virtue of Law No. (4) of 1972 (as amended), and is governed by the provisions of Federal Law No. (48) of 2023 concerning the Organization of the Insurance Operations and the Federal Decree Law No. (32) of 2021 concerning the Commercial Companies, Central Bank of UAE Board of Directors' Decision No. (25) of 2014 Pertinent to Financial Regulations for Insurance Companies and Central Bank of UAE Board of Directors' Decision No. (23) of 2019 concerning Instructions Organising Reinsurance Operations.

The Company's principal activity is the transaction of insurance and reinsurance business of all classes and is registered and it is licensed and supervised by the Central Bank of UAE under registration No. (001). The registered office of the Company is located in ADNIC Building No. (403), Khalifa Street, P. O. Box 839, Abu Dhabi, UAE.

2 Basis of preparation

(a) Basis of consolidation

The condensed consolidated interim financial information comprises the financial results of the Company and those of its following subsidiary (together "the Group"):

Subsidiaries	Principal activity	Country of incorporation	Ownership
ADNIC International LTD Allianz Saudi Fransi Cooperativ	*Other activities auxiliary to insurance	United Kingdom	100%
Insurance Company (AFC)**	Insurance and Reinsurance	Saudi Arabia	51%

* The Company incorporated a wholly owned subsidiary on 3 July 2017 named ADNIC International LTD to operate as a representative office of the Company in London, England.

****Acquisition of Allianz Saudi Fransi Cooperative Insurance Company ("ASF") from 17th April 2024-** ADNIC has finalized the acquisition of a 51% stake in Allianze Saudi Fransi Cooperative Insurance Company, effective April 17th, 2024. According to the agreement terms, the total consideration for this acquisition was AED 489 million, paid in full in cash.

In accordance with Group IFRS accounting policies, the assets and liabilities acquired were adjusted to their provisional fair value as of the acquisition date. These adjustments have been reflected in the opening balance sheet and are incorporated into the condensed consolidated interim financial statements.

The computation of the purchase consideration and its allocation to the net assets of ASF based on their provisional fair values as of 17 April 2024 is presented below.

	(Unaudited)	
	AED ⁹	000
Consideration paid	488,552	
Non- controlling Interest	<u>384,478</u>	873,030
Less: Provisional fair value of identifiable net assets		
Total assets acquired	1,991,695	
Less: Total liabilities assumed	(1,207,045)	(784,650)
Goodwill		88,380

Notes to the condensed consolidated interim financial information (continued)

2 Basis of preparation (*continued*)

(a) Basis of consolidation (continued)

In accordance with IFRS 3 - Business Combinations, the allocation of the purchase price may be modified within a period of twelve months from the date of business combination, as more information is obtained about the fair value of assets acquired and liabilities assumed. This may result in different values being attributed to the assets and liabilities acquired, and hence, change in the accounting for the acquisition.

Subsidiaries

Subsidiaries are entities over which ADNIC has established control. Control is determined by ADNIC's exposure or rights to variable returns from its involvement with the entity, coupled with its ability to influence those returns through its governing power over the entity. The financial results of subsidiaries are included in ADNIC's consolidated financial statements from the date control is obtained and are excluded from the date control is lost.

ADNIC employs the acquisition method of accounting for business combinations, regardless of whether equity instruments or other types of assets are acquired. The consideration for acquiring a subsidiary includes the fair value of the transferred assets, liabilities incurred to the former owners of the acquired business, issued equity interests, the fair value of any contingent consideration arrangements, and the fair value of any pre-existing equity interest in the subsidiary. At the acquisition date, identifiable assets acquired, liabilities assumed, and contingent liabilities are initially measured at their fair values, with limited exceptions.

NCI are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. The results and equity attributable to non-controlling interests are presented separately in the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of financial position, and consolidated statement of changes in equity.

Inter-company transactions, balances and unrealized gains on transactions between ADNIC and its subsidiaries are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

The financial statements of subsidiaries are consolidated into the Group's financial statements from the date the Group gains control, either through acquisition or incorporation, and remain consolidated until the Group ceases to have control. These consolidated financial statements are prepared for the same reporting period as the parent company and adhere to consistent accounting policies throughout the Group.

Goodwill

Goodwill is recognised and measured on business combinations acquired by ADNIC, as described within the 'Basis of consolidation and equity accounting' policy. Goodwill on acquisitions of subsidiaries is included in intangible assets in the consolidated statement of financial position.

Goodwill is recorded when the total of the consideration transferred, any non-controlling interest in the acquired entity, and the acquisition-date fair value of any previously held equity interest in the acquired entity exceeds the fair value of the net identifiable assets acquired.

Notes to the condensed consolidated interim financial information (continued)

2 Basis of preparation (*continued*)

(b) Basis of consolidation (continued)

Goodwill (continued)

Goodwill is not amortised but is tested for impairment annually, or more frequently if there are indications of potential impairment. It is carried at cost, less any accumulated impairment losses. For impairment testing purposes, goodwill is allocated to cash-generating units (CGUs) or groups of CGUs that are expected to benefit from the business combination in which the goodwill originated. An impairment loss is recognized when the carrying amount of a CGU or group of CGUs exceeds its recoverable amount. Impairment losses on goodwill are not reversed.

(b) Basis of accounting

As explained in note 3, the Group has adopted all consequential amendments to International Financial Reporting Standards ("IFRS"), with a date of initial application of 1 January 2024.

(c) Statement of compliance

This condensed consolidated interim financial information has been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. Accordingly, this condensed consolidated interim financial information does not include all of the information required for a complete set of consolidated financial statements, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2023 except for changes in significant accounting policy as provided in note 3, which have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The results for the six months period ended 30 June 2024 are not necessarily indicative of the results for the year ending 31 December 2024

(d) Basis of measurement

The condensed consolidated interim financial information has been prepared under the historical cost convention except for investment properties, financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income which are carried at fair value.

(e) Functional and reporting currency

This condensed consolidated interim financial information is presented in United Arab Emirates Dirhams ("AED"), which is the Company's functional currency. Except as indicated, financial information presented in AED has been rounded to the nearest thousand.

The individual financial statements of the Group entities are presented in the currency of the primary economic environment in which they operate (functional currency). For the purpose of these interim condensed consolidated financial statements, the results and financial position of each subsidiary are expressed in the functional currency of the Parent Company.

(f) Use of judgements and estimates

In preparing this condensed consolidated interim financial information, management has used the same judgements and estimates with those used in the preparation of the consolidated financial statements for the year ended 31 December 2023 except as described in below note on account of acquisition of subsidiary during the period to the interim condensed consolidated financial statements,

Notes to the condensed consolidated interim financial information (continued)

2 Basis of preparation (*continued*)

a) Discounted rates

The bottom-up approach was used to derive the discount rate by subsidiary company ASF. Under this approach, the USD based risk free discount rates by European Insurance and Occupational Pensions Authority (EIOPA) were used as a starting point for preparing the yield curve. The Group then further added a KSA country risk premium from the source to make the yield curve appropriate for application. The Group has used the USD volatility adjustment reported by EIOPA for Solvency II as a proxy for illiquidity premium. The Group is currently discounting liability for incurred claims for all groups of insurance contracts.

For GMM, the bottom-up approach is used to derive the discount rate. Under this approach, the discount rate is determined as the risk-free yield, adjusted for differences in liquidity characteristics between the financial assets used to derive the risk-free yield and the relevant liability cash flows (known as an 'illiquidity premium'). The Group uses EIOPA rates provided by Allianz Group as risk free rates. Management uses judgement to assess liquidity characteristics of the liability cash flows. For GMM, due to size of business being immaterial, liquidity premium is not considered.

b) CSM determination

For long-term Individual Life contracts, measured under the GMM and VFA, the Group recognizes a contractual service margin (CSM) which represents the unearned profit the Group will earn as it provides service under those contracts. A coverage unit methodology is used for the release of the CSM. Based on the benefit for the policy holders, the applicable CSM release pattern is determined by using coverage unit methodology which will reflect the benefit defined in the insurance contracts with the policyholders.

In performing the above determination, management applies judgement that might significantly impact the CSM carrying values and amounts of the CSM allocation recognized in the income statement for the period.

3 New and amended IFRS Standards that are effective for the current period

In the current period, the Group has applied a number of amendments to IFRS Standards and Interpretations issued by the International Accounting Standards Board (IASB) that are effective for an annual period that begins on or after 1 January 2024.

The following new and revised IFRSs, which became effective for annual periods beginning on or after 1 January 2024, have been adopted in these condensed consolidated interim financial information. Their adoption has not had any material impact on the disclosures or on the amounts reported in these condensed consolidated interim financial information.

New and revised IFRS

Summary

Amendments to IFRS 16 *Leases* relating to Lease Liability in a Sale and Leaseback

The amendment clarifies how a seller-lessee subsequently measures sale and leaseback transactions that satisfy the requirements in IFRS 15 to be accounted for as a sale.

Notes to the condensed consolidated interim financial information (continued)

3 New and amended IFRS Standards that are effective for the current period *(continued)*

New and revised IFRS	Summary				
Amendments to IAS 1 <i>Presentation of</i> <i>Financial Statements</i> relating to Classification of Liabilities as Current or Non-Current	The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current.				
	The amendments also defer the effective date of the January 2020 amendments by one year, so that entities would be required to apply the amendment for annual periods beginning on or after 1 January 2024.				
Amendments to IAS 1 <i>Presentation of</i> <i>Financial Statements</i> relating to Non- current Liabilities with Covenants	The amendment clarifies how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.				
Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures relating to Supplier Finance Arrangements	The amendments add disclosure requirements, and 'signposts' within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangements.				

Other than the above, there are no other significant IFRSs and amendments that were effective for the first time for the financial year beginning on or after 1 January 2024.

4 New and revised IFRS in issue but not yet effective and not early adopted

At the date of authorisation of these consolidated financial statements, the Group has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

New and revised IFRSs	Effective for annual periods <u>beginning on or after</u>
Amendments to IAS 21 <i>The Effects of Changes in Foreign Exchange</i> <i>Rates</i> relating to Lack of Exchangeability	1 January 2025
The amendments contain guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not.	
Amendments to the SASB (Sustainability Accounting Standards Board) standards to enhance their international applicability	1 January 2025
The amendments remove and replace jurisdiction-specific references and definitions in the SASB standards, without substantially altering industries, topics or metrics.	
Amendments to IFRS 9 <i>Financial Instruments</i> and IFRS 7 <i>Financial Instruments: Disclosures</i> regarding the classification and measurement of financial instruments	1 January 2026
The amendments address matters identified during the post- implementation review of the classification and measurement requirements of IFRS 9.	

Notes to the condensed consolidated interim financial information (continued)

4 New and revised IFRS in issue but not yet effective and not early adopted (continued)

New and revised IFRSs	Effective for annual periods <u>beginning on or after</u>
IFRS 18 Presentation and Disclosures in Financial Statements	1 January 2027
IFRS 18 includes requirements for all entities applying IFRS for the presentation and disclosure of information in financial statements to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses.	
IFRS 19 Subsidiaries without Public Accountability: Disclosures	1 January 2027
IFRS 19 specifies the disclosure requirements an eligible subsidiary is permitted to apply instead of the disclosure requirements in other IFRS Accounting Standards.	
Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011)	Effective date deferred indefinitely. Adoption
The amendments relate to the treatment of the sale or contribution of assets from an investor to its associate or joint venture	is still permitted.

The Group anticipates that these new standards, interpretations and amendments will be adopted in the Group's condensed consolidated interim financial information as and when they are applicable and adoption of these new standards, interpretations and amendments may have no material impact on the condensed consolidated interim financial information of Group in the period of initial application.

5 Material accounting policy information

Except as described in below, the accounting policies applied by the Group in this condensed consolidated interim financial information are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2023.

(a) Measurement under VFA

The Variable Fee Approach ("VFA") is a mandatory modification of the general measurement model regarding the treatment of the contractual service margin in order to accommodate direct participating contracts.

An insurance contract has a direct participation feature if the following three requirements are met:

- the contractual terms specify that the policyholder participates in a share of a clearly identified pool of underlying items;
- the Group expects to pay to the policyholder an amount equal to a substantial share of the fair value returns on the underlying items;
- the Group expects a substantial proportion of any change in the amounts to be paid to the policyholder to vary with the change in fair value of the underlying items.

Notes to the condensed consolidated interim financial information (continued)

5 **Material accounting policy information** (*continued*)

(a) Measurement under VFA (continued)

Direct participating contracts issued by the Group are contracts with direct participation features where the Gorup holds the pool of underlying assets and accounts for these Groups of contracts under the VFA. The Group uses judgement to assess whether the amounts expected to be paid to the policyholders constitute a substantial share of the fair value returns on the underlying items.

The Standard does not require separate adjustments to be identified for changes in the contractual service margin arising from changes in the amount of the entity's share of the fair value of the underlying items and changes in estimates of fulfilment cash flows relating to future services. A combined amount might be determined for some or all the adjustments.

Under the VFA, adjustments to the contractual service margin are determined using current discount rates whereas under the general model, adjustments are determined using discount rates locked in at inception of a group of insurance contracts.

In contrast to insurance contracts measured under the general measurement model, the contractual service margin for contracts with direct participation features is not explicitly adjusted for the accretion of interest since the adjustment of the contractual service margin for the changes in the amount of the entity's share of the fair value of underlying items already incorporates an adjustment for financial risks, and this represents an implicit adjustment using current rates for the time value of money and other financial risks.

The variable fee approach possesses following key features;

- i. Comparable to GMM, the only difference is that this group of insurance contract have policy holders who participate in share of clearly identified pool of underlying items.
- ii. The insurer expects that part of the profit of the underlying items needs to be paid to the policy holder, while the amount paid to the policy holder depends on the underlying item.
- iii. The result is that VFA looks like GMM, not different at the start of the contract.
- iv. Only the subsequent years there are differences in the cash flows (as part goes to policy holder) and the CSM does not reflect the unearned profit for the insurer, as part of it also belongs to the policy holder.

For insurance contracts under the VFA, the following adjustments relate to future service and thus adjust the CSM:

- a. changes in the Group's share of the fair value of the underlying items; and
- b. changes in the FCF that do not vary based on the returns of underlying items:
 - i. changes in the effect of the time value of money and financial risks including the effect of financial guarantees;
 - ii. experience adjustments arising from premiums received in the period that relate to future service and related cash flows such as insurance acquisition cash flows and premium-based taxes;
 - iii. changes in estimates of the present value of future cash flows in the LRC, except those described in the following paragraph;
 - iv. differences between any investment component expected to become payable in the period and the actual investment component that becomes payable in the period; and
 - v. changes in the risk adjustment for non-financial risk that relate to future service.

Notes to the condensed consolidated interim financial information (continued)

5 **Material accounting policy information** (*continued*)

(a) Measurement under VFA (continued)

For insurance contracts under the VFA, the following adjustments do not relate to future service and thus do not adjust the CSM:

- a. changes in the obligation to pay the policyholder the amount equal to the fair value of the underlying items;
- b. changes in the FCF that do not vary based on the returns of underlying items:
 - i. changes in the FCF relating to the LIC; and
 - ii. experience adjustments relating to insurance service expenses (excluding insurance acquisition cash flows).

The Group does not have any products with complex guarantees and does not use derivatives to economically hedge the risks.

The Group applies the variable fee model to:

- Education Unit link (DSF and Banca)
- Retirement Unit link (DSF and Banca)
- Group Retirement

(b) Unit linked investments

Unit linked investments are assets backing liabilities arising from contracts, where the liabilities are contractually linked to the fair value of the financial assets within the policyholder's unit linked funds and are classified as 'held for trading' assets and are designated at fair value through statement of income.

Investments classified as trading are acquired principally for the purpose of selling or repurchasing in the short term and are recorded in the statement of financial position at fair value. Any change in fair value is recognized in the statement of income.

Unit linked assets are related to investments in unit linked funds.

The Group has established unit linked liabilities which, excluding some timing differences and reserves, match exactly with the policyholder's unit linked assets.

The fair value of unit linked investments is measured based on the net assets value provided by the fund manager. As the input to the valuation technique is observable from market sources, the Group uses Level 2 hierarchy for determining and disclosing the fair value of above unit linked investments and for private equity fund the Group uses Level 3 hierarchy for determining and disclosing the fair value.

14 Fair value of financial instruments

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

IFRS 13 establishes a single framework for measuring fair value and making disclosures about fair value measurements when such measurements are required or permitted by other IFRS. It unifies the definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in the different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Notes to the condensed consolidated interim financial information (continued)

14 Fair value of financial instruments (continued)

Assets measured at fair value – fair value hierarchy

The table below analyses assets at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorized:

The above bank guarantees and letters of credit were issued in the normal course of business.

Notes to the condensed consolidated interim financial information (continued)

17 Contingent liabilities and commitments (*continued*)

Legal claims

The Group, in common with the significant majority of insurers, is subject to litigation in the normal course of the business. Management, based on advice from independent loss adjusters, internal and external legal counsels, makes provision, where applicable, representing amounts expected to result in a probable outflow of economic resources.

18 Capital risk management

The solvency regulations identify the required solvency margins to be held in addition to insurance liabilities. The solvency margins (presented in the table below) must be maintained at all times throughout the year. The Group is subject to solvency regulations which it has complied with during the period. The Group has incorporated in its policies and procedures the necessary tests to ensure continuous and full compliance with such regulations.

The table below summarizes the Minimum Capital Requirement, Minimum Guarantee Fund and Solvency Capital Requirement of the Group and the total capital held to meet these required Solvency Margins as defined in the regulations. In accordance with Circular No. CBUAE/BSD/N/2022/923 of CBUAE dated 28 February 2022, the Group has disclosed the solvency position for the immediately preceding period as the current period solvency position is not finalized. The below given solvency margins is based on the ADNIC standalone financial position, the consolidated solvency margins will be disclosed in the period ended September 2024.

	31 March 2024 (Unaudited) AED'000	31 December 2023 (Unaudited) AED'000
Total capital held by the Group	570,000	570,000

- Current tax	6,151	-	16,970	-
- Deffered tax	(56)	-	(56)	-
	8,299	-	19,118	-

On 9 December 2022, the United Arab Emirates (UAE) Ministry of Finance ("MoF") released Federal Decree-Law No 47 of 2022 on the Taxation of Corporations and Businesses, Corporate Tax Law ("CT Law") to enact a new CT regime in the UAE. The new CT regime has become effective for accounting periods beginning on or after 1 June 2023. As the Group's accounting year ends on 31 December, the first tax period will be the period from 1 January 2024 to 31 December 2024, with the respective tax return to be filed on or before 30 September 2025.

The taxable income of the entities that are in scope for UAE CT purposes will be subject to the rate of 9% corporate tax. It is not currently foreseen that the Group's UAE operations will be subject to the application of the Global Minimum Tax rate of 15% in FY2024. The application is dependent on the implementation of Base Erosion Profit Shifting (BEPS 2) - Pillar Two rules by the countries where the Group operates and the enactment of Pillar Two rules by the UAE MoF.

The tax charge for period ended 30 June 2024 is AED 19,118 thousand (30 June 2023: AED Nil thousand), representing an Effective Tax Rate ("ETR") of 8.5 % (30 June 2023: Nil %).
